

HEAVY GLASS HARDWARE OPTIONS

HEAVY GLASS SWING AND PIVOT DOOR SYSTEMS

310 BRAND HINGES

All 310 Brand hinges feature a self-centering design with a reversible 5-degree optional pivot pin. Our wall-mount hinges come standard with an "H" back plate, providing maximum adjustability during installation and exceptional strength.

Our gaskets are manufactured from a proven anti-slip material that has significantly reduced—and in many cases eliminated—slippage related callbacks for our customers. As with all 310 Brand hardware, our hinges are backed by a Limited Lifetime Warranty.

We offer Regular, Adjustable, and Pivot hinges in both Standard and Heavy Duty options. All of our hinges are available in Beveled styles, with most also offered in Square. In addition, we also carry some of our most popular hinges with Offset Back Plates. Our finishes include CH, BN, ORB, MB, SB, PN, and BB, available across the majority of our hardware line.

HINGE CONTENTS:

- (4) Hinge Gaskets, (2) Thin, (2) Thick to accommodate both 3/8" and 1/2" glass
- (2) Hex Bit Face Plate Screws
- (2) Optional Phillips Bit Face Plate Screws
- (5) 3" Wall Mount Screws (one extra just in case)
- (1) Internal Metal-to-Glass Cutout Cushion
